VOL V – ISSUE 5

January 2017

Message from the Chair, Dr. Juan Carlos Zúñiga-Pflücker

As January comes to an end, I would like to thank the many of you that worked very hard to help put together our Department's 5-year Self-Study Report, which was sent to the external reviewers, who will be providing feedback to the Dean and myself after their visit on Feb 1-2, 2017.

This month had a great ending with the release of the Department's *IMMpress Magazine*. Copies of the magazine are on their way out, but in the meantime you can check it out at www.immpressmagazine.com. Congratulations to the IMMpress team for another stellar issue.

I want to highlight three other items: 1) we will be having our next Departmental Faculty Meeting on March 20, 2017, 2) to all our 2nd year graduate students please note the upcoming deadlines regarding studentship applications, and 3) to all IMM450 undergrads, please note the announcement for this year's OQUIC, details below.

Lastly, we would like to ensure that all postdoctoral fellows working in labs of PI's affiliated with the Department of Immunology are fully engaged with events taking place in Immunology, with this in mind, please encourage your postdocs to go to <http://www.immunology.utoronto.ca/content/postdoctoral-fellow-registration> to register with us.

WELCOME

Faculty

Dr. Sonya MacParland, Assistant Professor (TGRI)

Dr. Minna Woo, Professor (TGRI)

IMMSA

Welcome back, and we hope everyone is excited for the new semester! Thank you for everyone who participated in our annual IMMSA apparel sales, and we will contact you by email when the items are ready for pick-up.

We are very excited about our events for this semester! In February we will hold a graduate school info seminar for all undergrads interested in graduate school in the Department of Immunology. Please bring any questions you may have! In March we will have a academic seminar, IMMSA executive elections for senior positions, a pub night, and the annual BioJeopardy event against other biomedical course unions. Finally, in May 6-7, 2017, we will hold the 9th annual OQUIC, where we highlight undergraduate researchers in a two day conference.

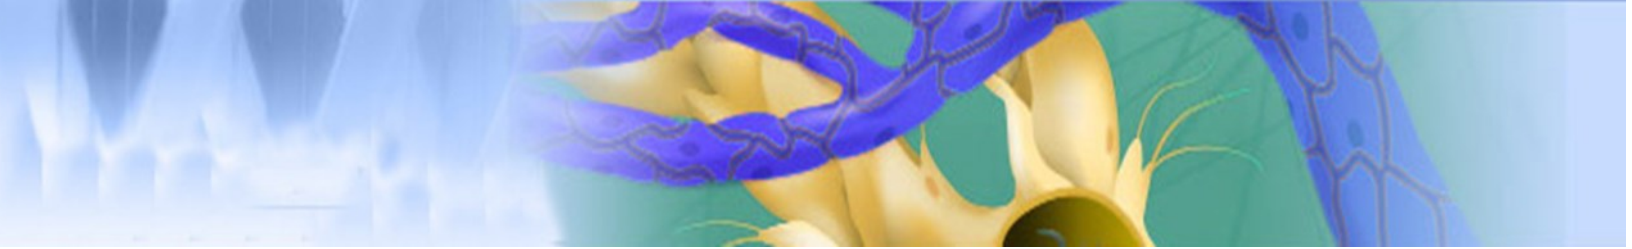

Please follow us on social media for more event details! If you have any questions or concerns, please feel free to contact us at immsa.immunology@gmail.com.

Regards,

Natalie Hoffmann & Conan Chua
